GitHub: <https://github.com/Emmanuel6093>

Full-stack web developer with the idea of building apps/websites that provide the best user-experience. Recently obtained a certificate in full-stack web development from the University of Chapel Hill Coding Bootcamp, with new skills in HTML, CSS, and Javascript. With each project my aim is to target responsiveness and provide an impactful user experience.

During my time at the bootcamp, I got to work with many different people on coding projects/activities so working with a team is no problem for me! I'm excited to use my skills to help build better experiences on the web.

## TECHNICAL SKILLS

JavaScript ES6+, CSS, HTML5, DOM manipulation, GitHub, GIT, Command-Line, API's, MySQL, JSON, React, Node, React, Mongoose, Problem-solving, Bootstrap, Teamwork, Communication.

## PROJECTS

**Google Book Search** | <https://github.com/Emmanuel6093/book-search-engine> | <https://emmanuel-googlebooks.herokuapp.com/>
